Company Profile

KlassTech is a turnkey systems integration company for educational and business environments. We provide world class technologies integrated by a highly experienced, industry certified team of engineers, designers, programmers and installation representatives. Our experience includes professional video, audio, conferencing, collaboration, visualization, streaming and broadcast technologies.

KlassTech also provides custom integrated and preassembled presentation systems that incorporates easy one touch operation, security asset monitoring, and is delivered on time and on budget.

Just a Few of Our Many Options

The Lectern
Our standard model, fully integrated, one touch, mobile.

The Professional
Same features as the Lectern model in a compact format.

The Media Center
Designed to simplify the use and equipping of integrated multimedia classrooms.

The Instructor
The same system in a desk style, ideal for labs or classrooms.

High quality wood construction. No particle board
